Dear Sir/madam

Application For The Software Engineer

I am qualified software engineer to join your IT department, I was excited to apply for the position as I believe I meet all the requirements to excel in this role. I am an experienced, qualified, and motivated software engineer who will be a great addition to your team.

I graduated in Information Technology specialization and currently completed in online certification courses such as ML ,SQL,java and AI. I have 2.5 years of software engineering experience, I can able to work in java ,python,Salesforce,Data Science and networking.

In my Virtusa position at Associate Engineer in Salesforce . my responsible wear Designed, Implemented, and deployed the Custom objects, Page layouts,Custom tabs, Custom Buttons, Custom Links, Components and Created various Profiles and Roles and configured the permissions based on the organizational hierarchy requirements.

I have java experience in Jazz Lanka Developers.I have an Experience in Object-oriented programming specifically on JAVA. Developed a desktop application using core java using swing.I can able to draw use case diagrams, object diagrams, class diagrams and sequence diagrams using UML.moreover , I worked in Codefover Technologies as software engineer to build and design android application .

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me and the success of your organization.

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,

Thusiyanth.R
